DESCRIPTION OF WORK

Fault Found (CAUSE): See Work Description

Work Action (CORRECTION): See Work description

Work Description: Client advised that someone had been playing with security reader which when ever knocked would create an alarm inside car. Investigated potential issue and removed wires caught up in reader. Found module for load weigher getting caught on concrete ledge. Removed obstacle and returned lift to service. Traced associated wiring for module to confirm good connection to control panel. Ran lift several times with no fault.

Part Required: No Parts Required
